

Group Two Ltd t/a Robowatch

Information Security & GDPR Policy

1st Feb 2024

GDPR Privacy Notice.

Background

This privacy notice lets you know what happens to any personal data that you give to us, or any that we may collect from or about you. It applies to all services, and instances where we collect your personal data.

This privacy notice applies to personal information processed by Group Two Limited t/a Robowatch. Who are we? Legal entity: Group Two Ltd is a limited company registered in England & Wales.

Registered number: 3611396 Registered Office: Bank Chambers, 1 Central Avenue, Sittingbourne Kent ME10 4AE Purpose of Processing: CCTV & Alarm Installation & Remote Monitoring, Legal Basis: Contractual requirement.

ICO Registration number: Z8398668 https://ico.org.uk/ESDWebPages/Entry/Z8398668

For ICO Data Protection Register – Entry Details please see pages 6 & 7

How to contact us:

We can be contacted on sales@robowatch.co.uk

Or by mail to: Group Two Ltd t/a Robowatch Unit 2 St Johns Court Foster Road Ashford Kent TN24 0SJ

What data do we hold?

We hold information on our staff for employment purposes.

We hold and process data provided by and consented for by you as part of the quotation & implementation of CCTV & Alarm security for your sites and as contractually requested by our clients and your employer.

This data will have been provided in writing, verbally or electronically as part of an initial enquiry to us or as part of ongoing management of an existing site.

This data includes:

The company details as well as:

- * Staff Names
- * Head Office & Site Addresses
- * Staff contact details including mobile phone number, landline and email addresses
- * Images (Photographs & video recordings) of requested sites
- * Company credit scores & history

All data is held centrally at our Head Office in Ashford, Kent. All data is held securely on password protected Servers and PC's.

Only authorised Group Two Ltd vetted employees & sub-contractors have access to client information for the purpose of protecting their sites as requested.

All backups are encrypted and carried out within the European Union.

The Robowatch systems are protected by a hardware firewall at the perimeter and software firewall's within the perimeter.

Various encrypted data backups are run on a daily basis both to an internal destination and to a known secure off site location.

Standard Windows authentication is used to ensure that users only have access to required data.

Emails - Mailguard scans all incoming and outgoing emails to remove both SPAM and virus emails using five different Anti-Virus engines. In addition it provides a failover in case of disruption to your mail services, in this case you can logon to MailGuard and send and receive emails with little disruption to service.

The SPAM engines also include CEO Fraud algorithms, real-time blacklisting of brand new domains and protection against 'looks-like' and 'sounds-like' version of your domain.

Paper – All documents that may contain any company or personal data is transferred onto the company secure servers and then shredded.

Telephone recordings – telephone conversations that may contain any company or personal information is stored on a secure server and retained as long as is currently required by the Security Industry Authority standards and then deleted.

Group Two Ltd t/a Robowatch only use the company & personal data received to undertake the role as the security provider for the client.

Where do we get this data from?

From you when completing an enquiry either verbally, electronically or in writing for us to provide you (the client) with a quotation & ultimately to protect your site with CCTV cameras.

From other sources such as Credit Reference Agencies, publically available directories and information (for example, telephone directory, social media, internet, news articles).

Description of processing

The following is a broad description of the way this organisation/data controller processes personal information. To understand how your own personal information is processed you may need to refer to any personal communications you have received, check any privacy notices the organisation has provided or contact the organisation to ask about your personal circumstances.

Reasons/purposes for processing information

We process personal information using a CCTV system to monitor and collect visual images for the purpose of security and prevention and detection of crime.

Type/classes of information processed

We process information relevant to the above reasons/purposes. This may include; personal details, personal appearance and behaviour; visual images.

We also process sensitive classes of information that may include:

- offences and alleged offences
- criminal proceedings, outcomes and sentences
- visual images, personal appearance and behaviour

Who the information is processed about

We process personal information about:

- staff
- customers, clients
- offenders and suspected offenders
- members of the public and people in the area which is under CCTV surveillance

Who the information may be shared with

We sometimes need to share the personal information we process with the individual themself and also with other organisations. Where this is necessary we are required to comply with all aspects of the Data Protection Act (DPA). What follows is a description of the types of organisations we may need to share some of the personal information we process with for one or more reasons.

Where necessary or required we share information with:

- business associates
- service providers
- enquirers and complainants
- police forces and security organisations
